We do work in Silver / gold / copper / Alloy Base for all our products with the combination of polish / Direct Plating / meena (enamel) / Stone works / all types of fanciness one wishes. Our USP for this products line is from measurements to fitting and delivery all at your doorstep.

We also restore your old works; repair polish works or fitting works with most care.

You can customise anything you want from us any size any design any shape with the choice of your polish and work.

- We proudly undertake the creation of your Prabhuji, ensuring that every minute detail is carefully crafted, including Sansan Devi and Devta, the finishing of each murti, its features, and most importantly, its completeness.
- This sacred art has been practiced for generations and is not imported. Very few artisans possess the depth of knowledge required to understand what is right and appropriate as per tradition. If a Pratimaji is incomplete or lacks essential details, it is not suitable for Prathishtha, as all Vidhan prescribed in the Shastra must be fulfilled for it to hold true significance.
- Once an order is placed with us, we assure delivery within 25 days.
- Customisation and new design creations are fully possible as per your requirements.
- The most unique aspect of our craftsmanship lies in our finishing process. After creating Siddhachakra or Bhagwan murtis, we only carry out buffing and cleaning.
- We do not use hammers (hathodi) or iron tools, and we do not perform nickel polish.
- All detailing, including elements like Mastak Dana, Shreevatsa, and Siddhachakra backgrounds, is embossed during the initial creation itself, ensuring exceptional precision and consistency where each piece perfectly matches the next.
